Modified Patch for Hardware VRS4.1 SP2 Notes.
(For fi-4860C2/5900C)

1. The usage of Modified Patch for VRS4.1 SP2
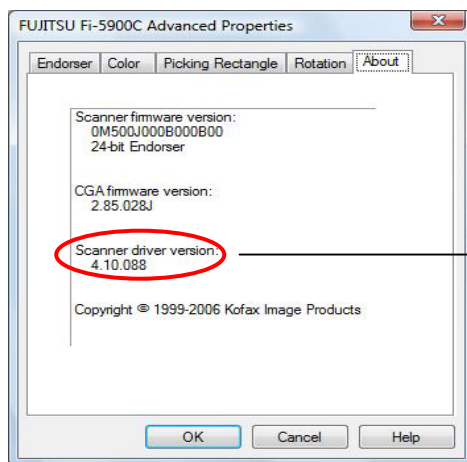

(a) File name : vrs410mfpatch.exe

(b) How to install
- Log in as Administrator.
- Locate the downloaded file onto Desktop and execute the file. After the execution of the file a new folder (eg. vrs410mfpatch) will be created in Desktop.
- Execute pfumultifeedupdate.exe from the new folder.
  (make sure beforehand that VRS4.1 is not operating)
- Installation is completed by the above procedures.
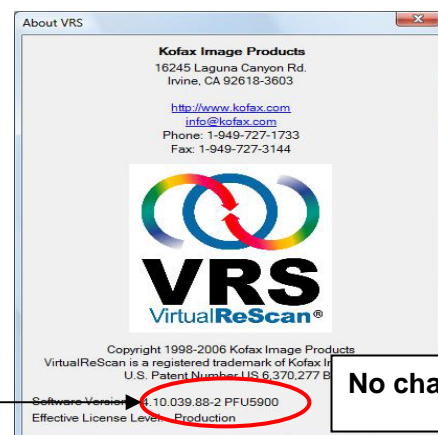

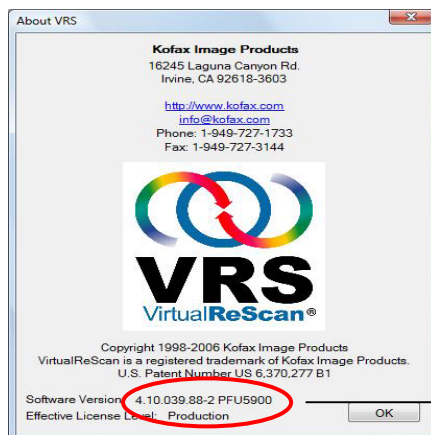

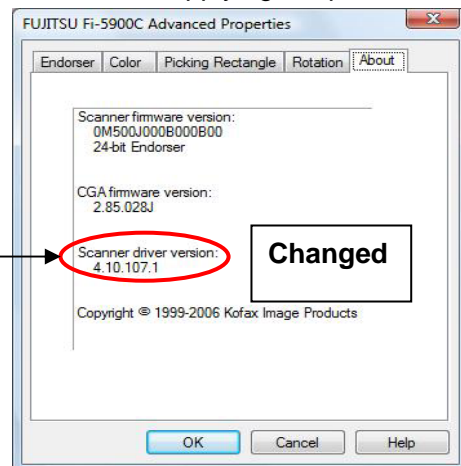

2. How to check the version

Check the VRS version by the following procedure. The following shows the case of fi-5900C.

### <In case of 4.10.039.88-2 PFU5900>
