fi-7300NX Firmware change history

Service Update 7

0M00

New feature:

1. The cloud service is now supported (only in specific regions).

   By purchasing EdgeXperience Capture Service, the scanner can be connected to EdgeXperience Capture Service.

Corrected issue:

1. Fixed other minor problems.

Service Update 6

0L00

New feature:

1. Scanning of FCF campus cards is now supported.

    It is available through PaperStream NX Manager Authentication API.

Improvements:

1. Support for Long page scan in Scan from the Touch Screen in PaperStream NX Manager.
2. Support for PaperStream NX Manager Web Scan cancellation.

Service Update 5

0K00

Corrected issue:

1. Fixed other minor problems.

Update

0J00

Corrected issue:

1. Fixed the USB communication error occuring with connection to a USB 2.0 port of specific computer models.

Service Update 3

0H00

New features:

1. Two options for scan from apps have been added to [Scanner Settings].

   ◦ [Application (internet)] under [PaperStream NX Manager]

   Enable [Application (internet)] to use Scan from Apps through PaperStream NX Manager on the internet.

   ◦ [Scanner Code]

   This makes it possible to set limit the use of Scan from Apps to operators who recognize the scanner code. Set a scanner code on device and user application to authenticate by scanner code. Scanner code is available in PaperStream NX Manager on either the intranet or the internet.

2. The Regulatory Compliance Mark in Australia (RCM) can be shown on the touch screen. (EU model only)

Service Update 2

0G00

New features:

1. Metadata now can be input from the Touch Screen when scanning operation is performed from the Touch Screen using PaperStream NX Manager.

2. The Help on the Touch Screen now supports Russian and Portuguese languages.

Service Update 1

0F00

New feature:

1. [Proxy Server] is now available under Scanner Setting File.

Corrected issue:

1. Fixed the problem that images detected as multifeed may not be marked by Mark Options of PaperStream Capture in a network connection.
