

SP Series Online Update change history

Version 1.2.32

Improvement:

1. Fixed other minor problems.

Version 1.2.30

Improvement:

1. Fixed other minor problems.

Version 1.2.26

New feature:

1. SP-1120N, SP-1125N, and SP-1130N are supported.

Version 1.2.22

Improvement:

1. The Online Update now notifies different versions of PaperStream IP for SP Series as below:

OS	Version to notify
Windows® XP	1.8.2
Windows Vista®, Windows® 8	1.46.0

Windows Server®, 2008	1.62.0
Other than the above	2.12.0 or later

Version 1.2.17

Improvement:

1. The Online Update now notifies different versions of PaperStream IP for SP Series as below:

OS	Version to notify
Windows® XP	1.8.2
Windows Vista®, Windows® 8	1.46.0
Other than the above	1.62.0 or later

Version 1.2.13.2

Improvement:

1. The Online Update now notifies different versions of PaperStream IP for SP Series as below:

OS	Version to notify
Windows® XP	1.8.2

Windows Vista®, Windows® 8	1.46.0
Other than the above	1.52.0 or later

Version 1.2.8.3

New feature:

1. SP-1425 is newly supported.

Improvements:

1. The end-user license agreement has been updated.
2. The Online Update does not notify any updates which are not compatible with the running operating system. For example, PaperStream IP for SP Series 1.46.0, which does not support Windows® XP, is not notified by the Online Update running on the OS.

Version 1.2.1.3

Improvement:

1. The user interface has improved to show both the current and latest version.
