- 1. Download and double-click the file. This creates the update file on the hard disk.
- 2. Install the update file via Network Scanner Admin Tool or Scanner Central Admin Console. Instructions on how to install the update are available from the following sources:
  - For installation via Network Scanner Admin Tool <u>N7100E Operator's Guide</u>
  - For installation via Scanner Central Admin Console
    <u>Scanner Central Admin User's Guide</u>
- Confirm if the installation is successfully completed. To confirm the system version, open the administrator window and go to [Status Details] > [System Status] > [System Version].
