

Log on to the environment where "Scanner Central Admin Server 5.8.0" is installed as a user with administrator privileges.

1. Download the file to your hard disk.
2. If other applications are running, close them all.
3. Unzip the ZIP file downloaded in Step1.
4. Running PSCA_ServerOption.exe will launch a command prompt and start the installation.
5. After installation, start "Scanner Central Admin Console" and log in to "Scanner Central Admin Server 5.8.0". Confirm that "Gate Console Settings" has been added to the bottom of the "Scanner Central Admin Server Operating Preferences (Common Settings)" screen (*).

* Please refer to the PaperStream Central Admin User's Guide for information on how to set up the Gate Console.
