

Be sure you log into Windows® as a user with administrator privileges.

1. Be sure that PaperStream Capture Pro has been installed on the computer.
2. Download the exe file onto the hard drive.
3. Double-click the downloaded file to start its self-extraction. After that, the installer starts automatically.

Follow the instructions on the window to install the software.

Once the installation is completed, go to [Control Panel] and open [Programs and Features] to confirm the version.
