

Be sure you log into Windows® as a user with administrator privileges.

1. Download file onto your hard drive.
2. Quit any other applications that are running on your computer.
3. Run the file downloaded during Step1, and the installation program starts automatically after the self-extraction is done.
 - If the installer did not start automatically, start the installer manually by PSSSSetup.exe file in the PSSSxxxx folder found in the same folder as download file.
4. Follow the instructions on the window to complete the installation.
5. When the installation has completed, start PaperStream ClickScan → [Other settings] → [About] and confirm the version is correct.
