

Installation Instructions

Note:

The latest ScanSnap Manager is required to install the OCR Packs.

1. Be sure you log into Mac OS X/OS X/macOS as a user with administrator privileges.
2. Download "MacScanSnapOCRPackage00xV10L10.dmg" onto your hard drive.
Make sure you have enough free disk space (at least more than twice the download file size) for installing the programs.
3. Quit any applications that are running on your computer.
4. Execute the downloaded "MacScanSnapOCRPackage00xV10L10.dmg" file.
5. Execute "MacScanSnapOCRPackage00xV10L10.pkg" that is deployed from the .dmg file to start the installation.
6. Follow the instructions from the Installation Wizard to complete the installation. Select [Open] when the message "xxxxx is an application downloaded from the Internet. Are you sure you want to open it?" appears during installation.
7. Check for the latest software updates and apply them before operating the scanner.
