

Carbon Neutral

We want to contribute fully to efforts to prevent global warming to realize a sustainable society.

Efforts towards Scope 1 and 2

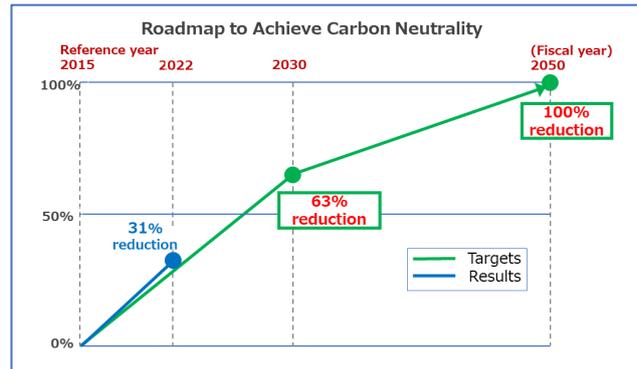

We aim to be completely carbon neutral by 2050. We want to achieve the goal of net zero CO₂ emissions coming from the PFU group.

In order to achieve carbon neutrality, we have created a "roadmap to completion", and while promoting the sustainable conservation of energy, we are also advancing toward the adoption of renewable energy.

Based on the RICOH Group's medium- to long-term environmental targets, we are aiming toward a zero-carbon society by setting our reduction target for fiscal 2030 as 63% reduction compared to fiscal 2015.

Target for Reduction in Amount of CO₂ Emissions (Scope 1, Scope 2)

Target for fiscal 2030	Target for fiscal 2050
63% reduction compared to fiscal 2015	100% reduction

Efforts towards Scope 3

The reduction of CO₂ emissions has been required across the entire supply chain of our business operations, from upstream to downstream, such as procurement, transportation, and use. PFU has set a reduction target that focuses on three categories with high emission rates: "Purchased products/services (Category 1)", "Transportation, shipping (upstream) (Category 4)", and "Use of products sold (Category 11)".

Target for Reduction in Amount of CO₂ Emissions (Scope 3)

Target for fiscal 2030
(40% reduction compared to fiscal 2015) (Category 1 + Category 4 + Category 11)
