

Sharing Information

We transmit and introduce "information about eco-efficient products" and "environmental activities" via our official website and at events.

We are sharing information about sustainability on our website.

"Sustainability" Page on Our Official Website

PFU aims to be a business that can contribute to "solutions to social issues" and "a design for a sustainable society". We have posted a "Sustainability" page on our public website to share information about our way of thinking, course of action, and future direction for "sustainable operation", "environment (E)", "society (S)", and "governance (G)".

In addition, we have built an environment to distribute information within the company to raise awareness of SDGs among workers in the PFU group.

"Sustainability" Page on Our Official Website

Environmental Report

Since 1994, we have been issuing the "PFU Environmental Report" (and the English version since 2003) as our annual environmental report and publishing the report on our official website. In addition to this report, we also share the latest information about eco-efficient products on our official website.

Environmental Report

Showroom

We set up showrooms at our main sites in Japan to display our eco-efficient products, such as scanners and other environmentally conscious solutions.

Internal Sharing of ESG Promotion Information

Through the ESG promotion portal on the company intranet, we share the following environmental information and continue to work on environmental improvements.

- Environmental policy, action plan, and implementation progress
- Owned facilities and chemical substances used
- Information about environmental laws and regulations and the company's compliance status
- Environmental performance data (Electricity, heat, gasoline, light oil, kerosene, gas, water, and waste)
- News, topics, and other information regarding the environment
